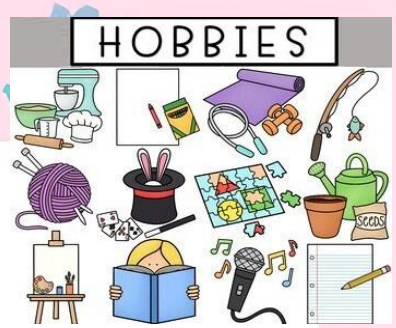
My Hobbies



Hello! I am Sofia from Class 4A. I am nine years old. I have many hobbies.

I like music very much. I enjoy playing the piano because the music is good. I always play the piano with my sister on Monday mornings. I usually play the piano at home. I am happy.

I love sports very much. I enjoy running but I never go swimming. I sometimes run with my sisters on Sundays. We usually run in the park. My eldest sister always runs faster than me.

I want to be an artist in the future.
