

# My Hobbies

I am Hiro. I am in Class 4C. I am nine years old.

I love ball games. I like badminton best. I often play badminton with Mum on Sundays. I play it well. There is a sports centre near my home so I can play badminton all the time. I can also make a lot of funny friends in the badminton lessons.

Playing computer games is my favourite hobby. I sometimes play computer games with my classmates on Fridays but I never play computer games before exams. I like to play different kinds of games such as Minecraft, Roblox and Brawl Stars. I like Minecraft best. It is exciting and challenging.

Hobbies are important to me because they make me healthy and relaxed. Also, it is a good way to make friends.

4C Cheung Shun Hong, Hiro
